CARE TRIAGE**

NCTONLINE.COM.AU

As a community service provider, National Care Triage can provide social and welfare support services to the elderly, frail aged and the disabled to access the community and maintain an active and stimulating lifestyle.

Why is this NCT service a cutting edge social and welfare support service?

- ✓ Empowers clients to direct the service tailored to their own requirements
- ✓ Involves the client in planning, implementing and evaluating the service
- ✓ The service can be flexible and responsive to the client's needs
- ✓ Assist clients to live life to the fullest by pursuing their passions and embracing adventure
- ✓ and more

OUR STAFF

All NCT staff are qualified and experienced in aged, community and the disability sectors. We thoroughly do background checks on all our staff, professional references and criminal history background checks. NCT also takes the time to carefully match up our carers and support staff to residents to ensure that the resident is comfortable with the service that is provided. Having non family member involvement in working with clients can have significant benefits in terms of participation and co operation.

**Do you have someone that is requiring our service?
